Sir Edward Grey begins his note with the statement that the president does not fully appreciate the British point of view and has misunderstood even the note of July 8. He says the British government does not seek to prevent the United States from granting subsidies to its own shipping passing through the canal, nor does it seek to deprive the United States of any liberty which is open to either themselves or to any other nation, to encourage its own shipping or own commerce by subsidies. The purpose of the United States in pegotiating the Hay-Pauncefote treaty was to recover their freedom of objection and obtain the right which they had surrendered in the Clayton-Bulwer treaty to construct the canal themselves.

TROOPS NEEDED AT TOWN OF JAY

COUNTY SEAT SCRAP IN DELA WARE COUNTY REACHES WARLIKE CONDITION

ARMED MOB IN CONTROL

And County Officials Fear to Attempt to Carry Out Court's Order to Move Records to

New Jay.

Grove - What approaches a smallsized civil war exists at Jay, the new county seat of Delaware county, in the quarrel between the citizens of Old Jay and New Jay, for possession of the court house. The governor has been asked to send troops to move the records to New Jay, in the face of at armed mob.

Declaring that "court decrees look like love letters," the citizens of Old Jay still are holding the fort, figuratively and in fact.

The decree of the supreme court is the mandamus suit against the county officials cannot be enforced except by ald of the state militia, as the county officials are neutral and are prevented from executing the court's order by a mob of fifty armed men. In the mob are men trained in the use of firearms, and they are in possession at hard-shooting rifles, which they free-

Some of the officials are still with the records in their offices, but practically no business is going on.

The pitched battle that was sched-'ed to take place did not transpire, for the reason that Sheriff Bud Thomsson could not secure a sufficient number of possemen to render probable the successful carrying out of his purpose of securing the records and carrying out the orders of the court and the county commissioners.

Citizens Fear to Serve.

The sheriff still is seeking deputies, but only a few men can be secured. Private individuals, realizing that to carry out the court's order means bloodshed, and possibly death, shirk the duty.

The holding up and assaulting of Enforcement Officer Sherdon served to indicate the desperate determination of the mob that controls the courthouse at Old Jay.

County Judge W. C. Hall, in a statement said: "The majortly of the residents of this county are law-abiding and are looking to the governor of Oklahoma to send state troops to save bloodshed and restore order." That is the way people here are viewing the situation. It is not believed that bloodshed can be avoided if the records are remove' unless it is done under the protection of the state militia.

The last census gives a population of less than 50 for both Jays combined.
